CZ P-10 Series Pistols

CZ (■eská Zbrojovka) • CZ P-10 C, P-10 F, P-10 S & P-10 M (9x19mm NATO)

Manufacturer:	CZ (■eská Zbrojovka)	**Category:**	Pistols
Action Type:	Striker-Fired Duty Pistol	**Era / Service:**	Modern Duty (2017–Present)
Calibers:	9x19mm Parabellum, .45 ACP	**Covered Models:**	CZ P-10 C (Compact), CZ P-10 F (Full Size), CZ P-10 S (Subcompact), CZ P-10 M (Micro)

KEY ARMORER TASKS & BENCH OPERATIONS

Core Procedures: Swappable Mag Catch Reversal • Striker Safety Block Inspection • Trigger Bar Stoning • Slide Stop Spring Alignment • Detail Disassembly

CRITICAL ARMORER TOLERANCES & SPECIFICATIONS

SPECIFICATION / CLEARANCE	ARMORER TOLERANCE & BENCH SPECIFICATION
BARREL LOCKUP	Browning-Petter style locking into slide ejection port; cold hammer forged barrel
TRIGGER SYSTEM	Crisp striker-fired trigger with 4.0 to 4.5 lb break and short positive tactile reset
SLIDE FINISH	Extremely hard corrosion-resistant nitrided ferritic nitrocarburized finish
MAGAZINE CATCH	Reversible single-sided steel catch (updated from early ambidextrous stiff design)

IMMEDIATE ACTION & MALFUNCTION DIAGNOSTIC MATRIX

MALFUNCTION CONDITION	PROBABLE CAUSES	ARMORER BENCH REMEDY
Stoppage 1: Stiff Magazine Release on Loaded Full Magazine Magazine release button requires excessive thumb force to drop a full 15/17rd magazine	• Top cartridge in full magazine exerts heavy upward spring pressure against underside of slide. • Early Gen 1 dual-sided ambi mag catch design had high friction angles.	**Gunsmith Action: Inspect mag catch model. Update to CZ factory reversible mag catch kit. Lightly polish the contact ramp of the mag catch shelf with 1500-grit paper.**

CURATED BENCH VIDEO REFERENCES

PROCEDURE TITLE	INSTRUCTOR / CREATOR	TECHNICAL PROCEDURE SUMMARY
CZ P-10C Complete Armorer Disassembly & Trigger Polish	Cajun Gun Works	Teardown of the CZ P-10 frame, removing locking block and sear assembly, smoothing trigger takeup, and reassembling slide components.
